MINUTES

The minutes from the August 28, 2001 Task Force meeting were approved as written. Approval of the minutes from the September 12, 2001 meeting for the Architectural Advisory Committee was deferred until the next meeting as there was not a quorum present.

OTHER BUSINESS

Boyd Johnson passed out an amendment for the Fire Prevention Board to R710-9-7. This is an amendment that will form a joint committee between the UBC Commission's Fire Protection Advisory Committee and the Fire Prevention Board's Fire Advisory and Code Analysis Committee. The joint committee will be called the Unified Code Analysis Council and will they will advise both the UBC Commission and the Fire Prevention Board. A similar amendment will go before the UBC Commission at their next meeting.

PROPOSED AMENDMENTS TO IBC SECTIONS 305, 308, 310, 419 & 903

Brent Halladay questioned the last sentence in the exception to 305.2 and a similar sentence in 308.5.2. After a lengthy discussion, a motion passed to strike the sentence "Child day care centers providing care for more than 100 children 2½ years or less of age shall be classified as Group I-4" in the exception to 305.2. The vote was seven in favor and Scott Marsell voting in opposition.

The amendment to Section 308.5.2 was reviewed. A motion unanimously passed to table the review on this section until the next meeting and to send this issue to an ad hoc committee to study and propose an amendment for review at the next meeting. The ad hoc committee was asked to consider changing Group I-4 child care facilities as presently listed for five children 2 ½ years of age by changing the age to 2 and moving them to an E occupancy. This ad hoc committee will be made up of Brent Halladay, Scott Marsell, Richard Lyman, Bill Bonn, Alan Hayward, and a member from the Architectural Advisory Committee. They will meet on 1-2-02.

Section 903 was reviewed. Brent Halladay discussed how the Fire Prevention Board handled this section. A proposal was passed out for the IFC R710-9-6, 6.3.2 to study. A motion was made to add an exception to the amendment for the IBC Section 903.2.9 and the IFC R710-9-6, 6.3.2 and to add the words "Smoke detection shall be electrically interconnected so that" before

the sentence in the exception that starts with upon activation. The vote was Boyd Johnson, Brent Halladay, Oliver Moore, and Ed Domian in favor and Scott Marsell, Richard Lyman, Ray Harris, and Dennis Strong voting in opposition. The motion did not pass due to a lack of a majority vote. A second motion unanimously passed to table this issue and send it to the ad hoc committee to review.

**PROPOSED AMENDMENT FOR IBC
SECTION 707.14.1 ELEVATOR LOBBY**

The joint committee reviewed this proposed amendment. A motion unanimously passed to forward this amendment on the UBC Commission.

**IBC SECTION 2603.3 FOAM PLASTIC
INSULATION**

A motion unanimously passed to table this amendment until the next meeting.

The meeting adjourned at 12:00.
